

# Learning and Cooking THROUGH THE Seasons WITH Ingram Micro and VMware

Complete both your VMware VSP and VTSP and earn a spot to attend a virtual cooking event the following month with Chef Josh Capon!

We are cooking up a fun and unique dish that complements the season at each appreciation event. You will receive everything you need to cook including the ingredients to follow along during this fun interactive event.

Each VSP and VTSP session is approximately 2-hours long. During each session our technical engineer will train and educate you on everything you need to know to pass your VSP and VTSP for that track.

## HOW DO YOU PARTICIPATE?

### It's easy!

- 1.** Register and attend both the VSP and VTSP Boot Camps for the specific solution you are interested in.
- 2.** Pass the 15-question quiz. You will have time during the event to complete this!
- 3.** Provide your certification certificate to the Ingram Micro team
- 4.** Get invited to the appreciation event and get your cook on
